

## **Shipping for Free when buying more than one or over a certain amount**

### **Zone shipping**

- Go to your shipping settings in your store manager
- In Zones- add Free shipping as an option
- In Free shipping settings add an amount the customer needs to spend to gain free shipping i.e. 25.00
- Save
- Don't forget that each product must have a shipping class correctly added- in single and in variable products- with variable, you must add that in each variable too

### **Weight shipping**

- Go to your shipping settings in your store manager
- In shipping by weight
- Choose based on rules next to calculate cost
- Add 0 in the Country Default cost if no matching rule
- In Weight rules choose Weight up to
- Add the weight you want to charge up to
- Add the cost of the weight you want to charge up to
- If anyone adds anything over that weight – they will get their shipping for free.
- You must have weight added into every single product and variable.
