

## Get paid with Stripe

Stripe is a convenient and low-cost way of getting paid. It doesn't cost to have a Stripe account, you only pay a small fee when taking payments (at time of writing this is 1.9% for UK/European cards + 20p per transaction).

RMOM acts as an intermediary, enabling you to take payments directly. We do not have any part of this transaction and get no fees from your sales; 100% goes to you (minus the Stripe fee).

To get started with stripe, go to Settings on your Vendor Store Manager, then click on the Payment menu.

Click on "Connect with Stripe". This will take you to the Stripe website. If you already have a Stripe account, you can log in at this point and set up a connection.

The Business Website field should already have the correct value in (our web address plus your store name at the end), so you shouldn't need to edit or change this.

**Activate your account**  
We need to learn more about you and your business before you can process payments on Stripe. Except where noted below, the information you provide will only be visible to the account owner and administrators. [Learn more →](#)

**Where are you based?**

Country  
United Kingdom

If you don't see your country, [let us know you're interested.](#)

**Your product**

Business website

No website yet? You can share an app store link or a social media profile (business profiles are preferred).

Business description

On the next page you enter your business type. If you are a Limited company or have a company number, add it here, otherwise leave that field empty. Likewise for the VAT number.

You must enter your business address, name, date of birth and home address.

## Account details

### Type of business

Individual / Sole Trader

### Company number Optional

12345678

We only need your 8-digit [Company Number](#). Don't have one yet? [Apply online](#).

### VAT number Optional

GB 123456789

### Business address

Street  Postcode

City

## You, the individual or sole proprietor

An individual or sole proprietor must activate their own account. If you're trying to activate this account on behalf of someone else, [please invite them](#) to become the account owner and complete the activation themselves.

### Legal name

First

Last

### Date of birth

DD / MM / YYYY

### Home address

Street  Postcode

City

Next, you enter the payment details. The Statement Descriptor may already be populated with your store name (no spaces). This is what will appear on customers' statements.

Next, add your bank account (where you want your money to go when customers purchase from you).

### Credit card statement details

This information may appear on your customers' credit card statement. You can change it at any time.

**Statement descriptor**

The name for your business that your customers will recognize. This may be the legal entity name, or a trading as name.

**Support phone number**

### Bank details

Given your location, the bank account you provide must be a checking account. You can accept CHF, DKK, EUR, GBP, NOK, SEK or USD. If you'd like to accept other currencies, you must have a bank account set up to be able to accept each currency. Currencies without an associated account will be converted into CHF, DKK, EUR, GBP, NOK, SEK or USD and sent to the default bank account you provide below. [Learn more](#) →

**Bank account currency**

**Sort code**

**Account number**

**Confirm account number**

### Direct debit request

I, the account holder, am the only person required to authorise debits. I request and authorise Stripe to transfer to and from this bank account through the Bankers' Automated Clearing Services (BACS) according to the [Services Agreement](#).

Lastly, you need to add a multi-factor authentication step to protect your account. You can choose to receive a text with a code when you log in, or you can link your account to Google Authenticator app.

Lastly, add your email and a password which you will use to log into Stripe. We do not see any of the information you have entered on this registration form.

Now you will be taken back to the store manager and will be able to take Stripe payments!

The screenshot shows a Stripe registration form with the following sections:

- Two-step authentication** (Required): A section explaining that strengthening account security is required. It offers two options: "Get text message" and "Use Google Authenticator".
- Almost done! Save your Stripe account.**: A section for final account details.
  - Email**: A text input field containing "myname@domain.com".
  - Password**: A password input field with 10 dots for masking.
- Authorization**: Two buttons, "Authorize access to this account" (highlighted in blue) and "Cancel".
- Disclaimer**: A line of text stating: "By creating your account, you agree to our [Services Agreement](#), [Connected Account Agreement](#), and certify that the information you have provided is complete and correct."
